Guidelines of our educational work

Participation

We base our work on the principle of a child's self-education process. Participation means self-determination and co-determination, personal and co-responsibility and finding constructive conflict resolution options.

(Partial) opening

The child should be given the opportunity to discover new topics in a stimulating environment, to be able to occupy itself with their own topics, accompanied by adults who stand by them, who allow them to develop and create the appropriate conditions.

Inclusion/Integration

All children can participate equally, regardless of their individual

characteristics, their situation in life or social affiliation.

Parental work means:

- Educational partnership
- Mutual understanding, support, complement and relief
 - *Parent meetings*
 - *Parents' evenings*
 - *Information for parents*
 - *Parent Advisory Board*
 - *Parent observation*
 - *Parent Questionnaire*
